2 Specially commissioned 4.65mØ cylindrical silo's, loaded and awaiting delivery. Client brief was to design ; build & supply units to suit a specific criteria & to match a separately supplied structure. Delivery time was crucial due to the tight window for installation as any delays would have knocked on to the next phase of installation.....

Delivery was achieved to a pre-agreed date and with the confidence of specialist movers, required due to their physical size, the contract was completed.....on budget & on time!!!

S N Engineering's flexible approach to clients requirements ensure limitations within the design brief can be accommodated without compromising the greater need, that of compliance. This flexible approach & well proven design & manufacturing process enables project specific units can be offered without the normal uplift in cost ; can be turned around quickly if required ; yet still maintain our quest for economical, soundly engineered & compliant equipment...

Single units from 20 to 1000m³, welded or bolted construction.

Why entrust S N Engineering...

- Full UK compliance...
- UK design & built...
- Proven track record...
- In House "dressings" for that complete supply.
- Stand alone units to complete turnkey "nests" easily accommodated.
- Various materials of construction, Mild Steel ; Aluminum or Stainless Steel can be supplied... natural ; painted or HDG.
